Exhibitions
To accompany the 1914FACES2014 closing conference, we are delighted to announce the following exhibitions:

**Faces of Conflict: the impact of the First World War on art and facial reconstructive surgery**
Royal Albert Memorial Museum and Art Gallery, Exeter
17th January – 4th April 2015
This exhibition takes the experience of the facially injured soldiers of the First World War as the starting-point for an enquiry into disfigurement in the broadest sense. It creates a dialogue between work created during and immediately after the First World War and the work of contemporary artists including the work of Paddy Hartley, artist in residence, College of Humanities.

**Saving Faces meets 1914FACES2014**
Exhibition of portrait paintings by Mark Gilbert 24th February – 26th March, University of Exeter, Forum (main campus)

Our presentation of the Saving Faces exhibition is part of a research-led enquiry into questions of social reintegration. The Saving Faces art project presents us with a unique opportunity to study the present-day collaboration between the maxillofacial surgeon Professor Iain Hutchison (St Bartholomew’s) and the acclaimed Glaswegian portrait painter Mark Gilbert.
